MD SHAKIL HOSSEN

SENIOR PHP DEVELOPER | 7+ YEARS | LARAVEL | FINTECH | REST APIs

01840997216 | shakilpp148@gmail.com | Dhaka, Bangladesh | LinkedIn Profile | GitHub

PROFESSIONAL SUMMARY

Experienced Senior Software Engineer with 7+ years of experience designing and developing scalable web applications, enterprise fintech platforms, and RESTful APIs. Specialized in Laravel, CodeIgniter, PHP, JavaScript, and MySQL, with expertise in billing systems, CRM solutions, payment integrations, and business process automation. Focused on building secure, high-performance applications and delivering scalable software solutions.

TECHNICAL SKILLS

Programming & Backend: PHP, JavaScript, Laravel, CodeIgniter, MVC, HMVC

Frontend: HTML5, CSS3, Bootstrap, Tailwind CSS, jQuery, AJAX

Database: MySQL, Database Design, Query Optimization

API & Integration: RESTful APIs, Payment Gateway Integration, Firebase, IMAP

Architecture: Repository Pattern, REST Architecture, Backend Development

Tools & Platforms: Git, GitHub, GitLab, Docker, Linux (Ubuntu), Azure, Jira, Linear, VS Code, Cron Jobs

PROFESSIONAL EXPERIENCE

Senior PHP Developer
12/2025 – Present

SahajMobile
Gulshan, Dhaka

Leading the development and enhancement of enterprise-grade fintech platforms supporting multiple business teams and operational workflows.

- Designing, developing, and maintaining scalable backend systems using PHP, CodeIgniter, MySQL, and RESTful APIs.
- Developing secure APIs for mobile applications and web platforms, ensuring seamless communication across internal and third-party systems.
- Enhancing fintech modules by improving application performance, database efficiency, and system reliability.
- Collaborating with product owners, QA engineers, and cross-functional teams to deliver high-quality software solutions.
- Optimizing complex SQL queries, implementing caching strategies, and improving application scalability.
- Troubleshooting production issues, performing code reviews, and maintaining coding standards.

Software Specialist
07/2023 – 12/2025

SSL Wireless
Eskaton, Dhaka

Developed a high-volume enterprise billing platform supporting customer transactions, automated payment processing, invoice management, financial reporting, and payment gateway integrations.

- Developed enterprise billing and payment management systems using Laravel and MySQL.
- Built and maintained RESTful APIs for payment gateways and third-party integrations.
- Automated business workflows, reporting systems, and transaction processing.
- Optimized database performance through indexing, query optimization, and caching.
- Integrated payment gateways, notification services, and Firebase for real-time synchronization.
- Collaborated with business teams to deliver scalable software solutions.

PHP Developer
12/2020 – 07/2023

bdtask
Khilkhet, Dhaka

Worked on backend and full-stack development for in-house and client products.

- Developed projects using PHP frameworks including CodeIgniter and Laravel.
- Built application features using JavaScript, jQuery, HTML, CSS, Bootstrap, and MySQL.
- Contributed to E-commerce, Hotel Management, ERP, Accounting, HRM, and other business solutions.

PROFESSIONAL EXPERIENCE — CONTINUED

Software Engineer 11/2019 – 09/2020
Pine Solutions Limited Banani, Dhaka

Integrated dynamic APIs and developed custom modules for enterprise resource planning (ERP) systems.

- Engineered SMS Mama, a custom solution for small vendor users, enabling easier communication and business management.
- Optimized customer account management and reporting systems to improve client insights and data-driven decisions.
- Implemented balance calculation mechanisms and merchant APIs, streamlining payment processing and financial operations.

Junior Programmer 02/2019 – 11/2019
Colour Consultancy Uttara, Dhaka

Gained foundational experience in software development and application maintenance.

- Developed and maintained applications using the Laravel framework.
- Worked on Order and Due Management systems, supporting accurate tracking and processing.

SELECTED PROJECTS

SAHAJ Fintech Platform | 12/2025 – Present
Tech: PHP, CodeIgniter, RESTful APIs, MySQL, JavaScript, Git
Enterprise fintech platform supporting customer verification, payment processing, EMI management, recovery operations, inventory management, and business reporting.

- Developed scalable backend modules and RESTful APIs for web and mobile applications.
- Enhanced fintech features, implemented business modules, and optimized database queries.
- Collaborated with multiple teams to deliver secure and reliable business solutions.

SSL Billing | 07/2023 – 12/2025
Tech: Laravel, Blade, JavaScript, jQuery, MySQL
Web-based billing system for managing invoices, payments, client accounts, reporting, and automated billing operations.

- Designed and developed a scalable billing system for high transaction volumes.
- Implemented advanced data reporting and filtering using Laravel and AJAX.
- Improved processing performance by 30% through query optimization and caching.
- Enabled real-time synchronization with third-party platforms using Firebase and cron jobs.

Employee Buddy | 08/2025 – 12/2025
Tech: Laravel, RESTful APIs, MySQL, Git, IMAP
Internal HR and employee engagement platform for SSL Wireless, built to automate HR processes, improve communication, and track employee activities.

- Integrated IMAP for automated email retrieval and storage.
- Developed RESTful APIs for data transfer, employee profiles, attendance, and leave management.
- Improved database performance for large-scale email data using optimized queries and Eloquent ORM.
- Integrated activity tracking and real-time notifications.

EDUCATION

Bachelor's Degree in Computer Science and Engineering 01/2014 – 01/2018
International University of Business Agriculture and Technology

Science 01/2010 – 01/2011
Afaz Uddin School and College
